ВПР по английскому языку 5 класс / Т. Vazhan — «Автор», 2026

Единственное пособие, где формат ВПР 2026 сочетается с увлекательным страноведением! Ваш ребенок путается во временах или боится аудирования? Всего за 9 месяцев системной работы (15 вариантов в месяц) этот сборник превратит подготовку к ВПР в понятный и предсказуемый процесс. Почему это пособие лучший выбор для 5 класса? 100% как на экзамене. 135 вариантов полностью соответствуют формату ВПР, включая аудирование с реальными скриптами. Грамматика без пробелов. Пособие охватывает ВСЕ темы 5 класса: от артиклей и времен (Present, Past, Future) до модальных глаголов и степеней сравнения. Сложные темы усваиваются через контекст. Живой английский вместо скучных текстов. Ребенок не просто решает тесты, а знакомится с историей, географией, культурой и знаменитостями. Пособие идеально для самостоятельной работы. Аудиоскрипты встроены в текст, а в конце есть ключи для самопроверки. Результат - полная готовность к аттестации, устойчивый интерес к языку и отличная база для 6 класса.

ВПР по английскому языку 5 класс

О пособии

Пособие содержит 135 тренировочных вариантов для подготовки к ВПР по английскому языку в 5 классе.

Каждый вариант включает задания по аудированию, чтению, грамматике и письму — в полном соответствии с форматом всероссийской проверочной работы. Издание охватывает все темы кодификатора, а также содержит богатый страноведческий материал: географию, культуру, историю, литературных персонажей и известных личностей стран изучаемого языка (Великобритании, США, Австралии, Новой Зеландии, Канады).

В конце пособия приведены ключи ко всем заданиям, а аудиоскрипты интегрированы прямо в текст.

Пособие соответствует ФГОС ООО и актуальной демоверсии ВПР, обеспечивая полное соответствие требованиям по подготовке к ВПР 5 класса.

Методическая ценность:

1. 100% аутентичность формату ВПР — все задания (А–Е) полностью соответствуют реальному экзамену.

2. Аудиоскрипты встроены — развитие навыков восприятия на слух без дополнительных материалов.

3. Ключи для самопроверки — возможность работать над ошибками самостоятельно.

4. Полный охват грамматических явлений, изучаемых в 5 классе — все темы: артикли, времена (Present Simple, Present Continuous, Present Perfect, Past Simple, Past Continuous, Future Simple, be going to), степени сравнения прилагательных, модальные глаголы (can, must, should, have to), местоимения, числительные, предлоги, порядок слов, исчисляемые и неисчисляемые существительные (much/many/a few/a little/some/any/no), страдательный залог (Present Simple Passive, Past Simple Passive, Future Simple Passive), условные предложения (тип 0 и 1) и т.д.

5. Многоуровневая сложность:

варианты 1–60 — базовый уровень;

варианты 61–120 — повышенный уровень;

варианты 121–135 — репетиционный экзамен.

Рекомендуемый график освоения: 15 вариантов в месяц на протяжении 9 месяцев (с сентября по май). Такой ритм позволяет равномерно распределить нагрузку, исключить «зубрёжку» перед экзаменом и превратить подготовку в системный процесс.

Кому адресовано:

Рекомендуется учащимся 5 классов, учителям, репетиторам и родителям для систематической подготовки в школах, на курсах и дома.

Matariki – Māori New Year in New Zealand

Matariki is a special holiday in New Zealand. It celebrates the Māori New Year. Matariki is the name of a cluster of stars – also called Pleiades.

The holiday dates change every year because it depends on the stars. Matariki usually happens in June or July.

There are many traditions during Matariki. People remember those who died in the past year. They also celebrate new life and the future. Families usually gather to share food. They cook special dishes from their gardens.

Right now, many communities are flying kites. Māori people believe that kites fly close to the stars. Children often learn to weave flax or tell stories. Some people plant trees at Matariki.

I always look at the night sky with my family. We eat a little mutton and many sweet potatoes. There are a few fireworks in some towns. People never stop telling stories about the stars. I love Matariki because there is much hope for the new year.

Conkers – a traditional game with horse chestnuts

Do you know how to play Conkers? This is a traditional autumn game in Britain. Children pick horse chestnuts from the trees. They make a hole through each nut and put a strong string through it. Then, two players take turns. One player hits the other player's conker with his own conker. The players try to break the opponent's conker. The winner is the player whose conker stays whole.

Some children make their conkers harder. They soak them in vinegar or bake them in the oven. These tricks are not always fair.

The World Conker Championship takes place every October in Northamptonshire. Hundreds of players come to compete. Some players are much better than others. You must follow the rules. You cannot hit the opponent's string or hand.

Задание 2. Чтение

Прочитайте текст. Для каждого предложения А–Е выберите один правильный вариант ответа из трёх предложенных (1, 2 или 3). Запишите выбранные цифры под соответствующими буквами.

Noson Galan Gaeaf – a winter night tradition in Wales

Do you know a tradition where children use turnips instead of pumpkins? Noson Galan Gaeaf takes place on October 31st in Wales. This night is much older than Halloween. Children carve a turnip. They put a candle inside it. These turnip lanterns look very strange. The children run through the streets. They shout 'Bwbach!' which means 'Boo!' in Welsh. The last child who returns home with a lit turnip can meet a real ghost. That is what people believe.

There are no pumpkins in this tradition – only turnips. Turnips are much harder to carve than pumpkins. You must be very careful with the knife. Some children make their lanterns in a group. This is safer than carving alone.

Currently, a group of children is running along a dark lane. They are holding their turnip lanterns high.

This tradition is one of the spookiest in Wales.

A. Noson Galan Gaeaf takes place on October 31st in _____.

1. Ireland 2. Wales 3. Scotland

B. Children carve a _____ for this tradition.

1. pumpkin 2. turnip 3. potato

Smart shower

Do you ever fight with your family about the shower? A smart shower can solve this problem.

This shower will create the perfect water temperature for each person. It will remember that you like warm water at 38 degrees while your brother prefers cooler water at 35 degrees.

The smart shower will also talk. It will say, 'Good morning! Your sister is coming in five minutes. Please finish.' This will help families avoid queues in the bathroom.

I am sure smart showers will be very common soon. They will save time and water. Some models will have a screen where you can choose your settings.

Right now, my friend Tom is testing a new smart shower in his house. He thinks this device is fantastic.

Probably every house will have a smart shower one day. These showers will be much better than ordinary ones. You should get one.

Do you want to walk on the Moon one day? In the future, people will take holidays to the Moon.

The first Moon hotel will open near the Apollo landing site. There will be special vehicles for tourists. You will travel from Earth to the Moon on the first day of your vacation. On the second day, you will walk on the Moon's surface. You will jump high because gravity is weaker there.

I hope many families will save money for this trip. Perhaps children will celebrate their birthdays on the Moon. Probably there will be guided tours to the old lunar modules left by astronauts. You will look up at the Earth from the Moon's surface. The Earth will look like a beautiful blue marble.

Right now, a space agency is training the first Moon hotel staff. They are going to learn how to help tourists in low gravity.

A. The first Moon hotel will open near the _____ landing site.

1. Apollo 2. Soyuz 3. Space Shuttle

B. You will travel from Earth to the Moon on the _____ day of your vacation.

1. first 2. second 3. third

C. There will be _____ tours to the old lunar modules.

1. guided 2. free 3. dangerous

D. Choose the TRUE sentence.

1. Gravity on the Moon is stronger than on Earth. 2. Right now, a space agency is training the first Moon hotel staff. 3. You will not jump high on the Moon.

E. The Earth will look like a beautiful blue _____ from the Moon.

1. marble 2. ball 3. star

Future food – biotechnology against hunger

Can we feed the planet without cutting down forests for pastures? Future food technology will solve this problem.

Vertical farms inside skyscrapers will grow vegetables all year round. These farms are much more efficient than traditional fields. You will eat burgers made from plant protein. They will taste like real meat.

Probably the most unusual food will come from insects. Protein from crickets or flies is very healthy. 3D printers will turn insect powder into tasty steaks. I hope people will not feel disgusted. Perhaps they will not even notice the difference.

I am sure vertical farms will produce the freshest vegetables in any city. There will be no need for long truck deliveries.

Right now, a company in the Netherlands is building the tallest vertical farm in the world. They are going to grow tomatoes fifty metres above the ground.

This is the most exciting solution to world hunger.

Vertical farms will grow vegetables _____ all year round.

1. underground 2. inside skyscrapers 3. under water

B. Burgers made from plant protein will taste like real _____.

1. fish 2. meat 3. cheese

Future professions – who will save the planet?

Ecology is not only about cleaning rubbish. In the future, it will become the most exciting career. An ecological urbanist will design green cities. An engineer will clean microplastics from the ocean. A climate programmer will create models to predict storms. A green gadget designer will invent devices that will repair themselves. I believe these professions will be the most respected in the world. You will need to study science and technology. I hope your friends will join A_____ too. Probably the most famous scientist of the future will be an ecologist. I am sure B_____ will solve problems that seem impossible today. Right now, a group of young engineers C_____ the first machine for ocean cleaning. D_____ machine is the most important invention for our seas. You should become one of these heroes. Neuro-Farm – a bioacoustic simulator with a neurointerface

Do you want to learn how to control your emotions? Future games will teach you exactly that.

Neuro-Farm is a game where you will care for alien plants. You will wear a neuro-bracelet on your wrist or a headband on your head. This device will read your brain rhythms and heart rate.

When you are calm and focused, the plants inside a special dome will bloom with glowing flowers. Rain will fall gently on them.

When you are angry or overexcited, the plants will cry. They will turn grey and their grass will wilt.

I believe this game will help children understand their feelings better. Probably you will learn to calm yourself without any help.

I am sure Neuro-Farm will be very popular in schools. The children who will play regularly will feel much less stress.

A. Neuro-Farm is a game where you will care for _____ plants.

1. alien 2. ordinary 3. plastic

B. You will wear a neuro-bracelet on your _____ or a headband on your head.

Treatment through VR games and smart bandages

Do you feel scared of the dentist? In the future, treatment will feel like a video game. You will put on a VR helmet and find yourself in a jungle or in space. A robot nurse will give you an injection in one second. You will not even notice it because you will be talking to a holographic pirate. There will be no fear, only fun.

I believe the first VR hospitals will open in 2030.

Probably the second most important invention will be the smart bandage. If you scratch your knee, this bandage will clean the wound by itself. It will put medicine on the cut. Then, it will change colour when the skin heals. It will work like magic litmus paper.

I am sure parents will buy these bandages for their children. This bandage will be much better than ordinary plasters.

- A. You will put on a VR helmet and find yourself in a jungle or in _____.
1. a school 2. space 3. a shop

Genetic mini-pets – tiny animals with a passport

Do you dream of a tiger as small as a mouse? Future scientists will create genetic mini-pets. These animals will be the size of a hamster. You will be able to order a pocket dog, a tiny rabbit or even a micro-tiger with a gentle character. They will eat special granules on a schedule. They will not shed fur.

These pets will live much longer than ordinary animals – up to 20 or 25 years.

Every pet will have its own genetic passport. You will know in advance whether it likes climbing or sleeping on your lap. You can also choose an unusual colour – fur that glows in the dark or a polka dot pattern.

I hope these animals will become available to everyone. I am afraid the price will be very high at first. Probably only special clinics will sell them.

These tiny animals will be the most amazing creatures in science.

A. Genetic mini-pets will be the size of a _____.

The Helix in Virginia – a living skyscraper

Would you like to see a skyscraper that breathes? Amazon's second headquarters in Arlington, Virginia, is not a normal office building. It is called The Helix. This tower is 106 metres tall. A spiral walkway wraps around its outside wall. Trees and plants grow all the way from the bottom to the top. The building looks like a green spiral among glass towers. I believe this is the most beautiful eco-building in America.

The style is called bio-tech or bionic futurism. It makes the line between wild nature and high technology disappear. Workers walk up the spiral garden during their lunch breaks. I am sure many tourists would like to come to see it.

Construction workers try to add some plants to the highest floors every quarter. You can see the building from far away.
