Egypt

How to move a temple? When the second dam project began, the temples on the banks of the Nile in Abu Simbel were threatened by flooding from the Nasser Reservoir. To save the historical heritage, it was suggested to cut the temples into 1036 pieces, each weighing 20 tons, raise them 65 meters, and reassemble them 200 meters further from the river. The grand move — the relocation of ancient Egypt — was completed in 1968. Abu Simbel, the temple that was built twice, is associated with the name...
