Введение

Данное пособие представляет собой структурированный материал для изучения лексики английского языка, используемой в повседневном общении. Основная цель книги заключается в формировании и расширении словарного запаса, а также в развитии навыков использования устойчивых выражений и речевых моделей в типичных жизненных ситуациях.

Материал организован по тематическому принципу. Каждая глава посвящена отдельной теме, связанной с повседневной жизнью, социальной и бытовой коммуникацией. Такой подход позволяет изучать лексику в контексте, что способствует более эффективному её усвоению и последующему применению в речи.

Каждая глава включает связный текст, выполненный на уровне A2, список ключевой лексики с переводом на русский язык, речевые шаблоны, а также практические задания для закрепления материала. Особое внимание уделяется устойчивым выражениям и коллокациям, которые широко используются в реальной речи носителей языка.

Также в пособии предусмотрены упражнения на развитие продуктивных навыков. Они направлены на формирование способности самостоятельно строить высказывания на английском языке, используя изученную лексику и грамматические конструкции. Это способствует переходу от пассивного знания слов к активному их применению.

Данное пособие может быть использовано для самостоятельного изучения, а также в качестве дополнительного материала в рамках учебного процесса. Оно ориентировано на учащихся, владеющих английским языком на начальном уровне и стремящихся улучшить навыки повседневного общения.

Daily routine — Повседневный распорядок дня

Text

Every person has a daily routine, even if it is not exactly the same every day. My typical day starts in the morning when my alarm clock rings at 7 a.m. I usually feel a little sleepy, but I get up because I know I need to start the day. I open the window to get some fresh air and then I go to the bathroom to wash my face and brush my teeth.

After that, I get dressed. I usually choose comfortable clothes because I want to feel relaxed during the day. Then I go to the kitchen to prepare breakfast. I often eat something simple like eggs, toast, or cereal. While I am eating, I sometimes check my phone to read messages or look at the news, but I try not to spend too much time on it.

At around 8 a.m., I start working or studying. If I have online classes, I turn on my computer and join the lesson. If I am working, I usually make a to-do list, so I know what I need to do during the day. This helps me stay organized and not forget important tasks.

In the middle of the day, I take a short break. I usually drink tea or coffee and sometimes go for a short walk. This is important because it helps me relax my mind and feel more energetic. After the break, I continue working or studying.

At lunchtime, I eat something light. I don't always cook a big meal, so I sometimes make a sandwich or reheat food from yesterday. Although I try to eat healthy food, I sometimes eat fast food when I don't have enough time.

In the afternoon, I continue my tasks. Sometimes I have meetings or homework, so I stay busy. I try to finish everything before evening because I like to relax later in the day.

In the evening, I usually finish work and spend time doing things I enjoy. I might watch a movie, listen to music, or talk to my friends. I also like to check social media, but I try not to spend too much time scrolling.

Before going to bed, I do some small evening routines. I wash my face, prepare my clothes for the next day, and sometimes read a book. I think reading is a good habit because it helps me relax and learn new things.

Finally, I go to bed at around 11 p.m. I try to sleep well because I know that good sleep is important for my health and energy. Although not every day is exactly the same, I try to keep a stable routine because it helps me feel balanced and productive.

Morning habits — Утренние привычки

Text

Morning habits are very important because they set the mood for the whole day. I try to start my mornings in a calm and positive way, although sometimes it is not easy when I feel tired or when I go to bed late.

Usually, I wake up at 7 a.m. when my alarm clock rings. I don't like to stay in bed for too long because it makes me feel lazy. So I try to get up quickly and start moving. The first thing I do is open the curtains to let in natural light. This helps me feel more awake.

After that, I go to the bathroom. I wash my face with cold water because it helps me wake up faster. Then I brush my teeth and look at myself in the mirror. It is a small routine, but it helps me feel ready for the day.

Next, I usually drink a glass of water. This is a simple habit, but it is very useful because my body needs water after sleep. I feel more refreshed and energetic after it.

After that, I get dressed. I usually choose comfortable clothes, but if I have an important meeting or class, I try to dress more neatly. I think appearance matters because it affects confidence.

Then I go to the kitchen and prepare breakfast. I don't always eat a big meal in the morning, but I try to eat something. For example, I often eat toast, eggs, or yogurt. Sometimes I also drink tea or coffee. Coffee helps me feel more energetic, especially on busy mornings.

While eating breakfast, I sometimes check my phone. I read messages or look at the weather. However, I try not to spend too much time on my phone because it can distract me from starting the day properly.

Before starting work or studying, I often plan my day. I make a small to-do list and think about what is most important. This habit helps me stay organized and feel in control. It also reduces stress during the day.

Sometimes I also do a short activity in the morning, like stretching or taking a short walk. It helps my body wake up and improves my mood. Even a few minutes can make a big difference.

In general, my morning habits are simple, but they are very useful for me. When I follow my routine, I feel more productive and focused. When I don't, my day feels more chaotic. That is why I try to keep my morning routine consistent, even on weekends.

Key Vocabulary and Expressions

Evening routine — Вечерний распорядок

Text

Evening routine is very important because it helps me relax after a busy day and get ready for good sleep. My evenings are usually calm, but sometimes they can be a bit different if I have a lot of tasks or meetings.

After finishing work or studying, I try to disconnect from all responsibilities. I usually close my laptop, put my phone aside, and take a short break. This helps me feel that the working day is really over and I can switch to rest mode.

First, I often clean my room a little. I don't do a deep cleaning every day, but I like to keep my space tidy because it helps me feel more comfortable and relaxed. A clean environment always improves my mood.

Then I prepare dinner or heat up food. I usually don't cook something complicated in the evening because I am already tired. So I prefer something simple like soup, pasta, or a sandwich. Although it is a light meal, it is enough for me at night.

While eating dinner, I sometimes watch videos or listen to music. It helps me relax my mind after a long day. However, I try not to spend too much time on my phone or TV because I want to sleep better later.

After dinner, I usually take some time for myself. I might read a book, take a warm shower, or just sit quietly. Reading is a good habit because it helps me calm down and focus on something peaceful.

Later in the evening, I prepare for the next day. I choose my clothes, check my schedule, and sometimes write a short to-do list. This small routine helps me feel more organized and reduces stress in the morning.

Sometimes I also reflect on my day. I think about what I did well and what I can improve. This helps me understand my habits better and become more productive over time.

Before going to bed, I try to avoid bright screens. I usually dim the lights, wash my face, and prepare my room for sleep. A quiet and calm environment helps me fall asleep faster.

Finally, I go to bed at around 11 p.m. I try to sleep enough because good sleep is very important for my energy and health. Although every day is not perfect, I try to keep a stable evening routine because it helps me end the day in a peaceful way.

At the supermarket — В супермаркете

Text

Going to the supermarket is a regular part of daily life. Most people go shopping several times a week to buy food and other things they need at home. I usually go to the supermarket in the evening or on weekends when I have more free time.

Before I go shopping, I often make a shopping list. This helps me remember what I need and avoid buying unnecessary things. Sometimes I still buy extra items, especially when I see discounts or special offers, but a list helps me stay more organized.

When I arrive at the supermarket, I take a shopping cart or a basket. If I plan to buy many things, I choose a cart, but if I only need a few items, I take a basket. Then I start walking through the aisles and looking for the products on my list.

I usually begin with fruits and vegetables. I try to choose fresh products, so I check how they look and sometimes smell them. After that, I go to the dairy section to buy milk, cheese, or yogurt. Then I visit other sections like bread, meat, and frozen food.

While shopping, I often compare prices. Some products are more expensive than others, so I look for good quality at a reasonable price. Sometimes I choose store brands because they are cheaper, but still good.

I also pay attention to expiration dates. It is important to check them, especially for dairy products and meat. I don't want to buy something that will go bad soon.

Sometimes I buy snacks or something sweet, although I try not to do it too often. Supermarkets often place these products near the checkout, so it is easy to take them without thinking.

When I finish shopping, I go to the checkout. I put my items on the conveyor belt and wait for the cashier. Sometimes there are long lines, so I need to be patient. While waiting, I sometimes check my phone or look around.

At the checkout, I pay for my groceries. I can pay by card or in cash. After that, I pack my bags and leave the supermarket.

When I get home, I unpack everything and put the products in the fridge or cupboards. I feel satisfied because I have everything I need for the next few days.

In general, going to the supermarket is a simple activity, but it requires attention and planning. When I shop carefully, I save money and avoid stress later.

Key Vocabulary and Expressions

supermarket — супермаркет

shopping list — список покупок

avoid unnecessary things — избегать лишних покупок

Online shopping — Онлайн-покупки

Text

Online shopping is very popular today because it is easy, fast, and convenient. Many people prefer buying things online instead of going to physical stores. I also use online shopping quite often, especially when I don't have enough time to go out.

One of the main advantages of online shopping is convenience. I can shop at any time, even late at night or early in the morning. I don't need to leave my home, so I save time and energy. This is very useful on busy days.

When I want to buy something, I usually open a shopping app or website and search for the product. I type the name of the item and look through different options. There are often many choices, so I try to compare prices, quality, and reviews.

Reading reviews is very important for me. Other customers share their experience, so I can understand if the product is good or not. Although not all reviews are perfect, they still help me make better decisions.

Another advantage is that I can easily compare prices. In physical stores, it takes more time, but online I can check many websites in a few minutes. This helps me find the best deal.

I also like that there are many discounts and special offers online. Sometimes I can buy things much cheaper than in regular shops. However, I try not to buy unnecessary things just because they are on sale.

When I choose a product, I add it to the cart and then go to checkout. I enter my address and choose a delivery option. Some deliveries are fast, but others take several days. I usually choose standard delivery because it is cheaper.

After that, I pay for the order. I usually pay by card, but sometimes I use other payment methods. When the payment is done, I receive a confirmation message.

Then I wait for my order. Sometimes I track the delivery to see where my package is. When it arrives, I check the product carefully. If everything is fine, I keep it. If there is a problem, I can return it or ask for a refund.

Of course, online shopping also has some disadvantages. For example, I cannot see or touch the product before buying it. Sometimes the size is wrong or the quality is not as good as I expected. But in general, it is still very convenient.

In conclusion, online shopping is a useful part of modern life. It saves time, offers many choices, and makes shopping easier. That is why I use it regularly.

Ordering food delivery — Заказ еды

Text

Ordering food delivery is very common today because it is fast, easy, and convenient. Many people order food when they are busy, tired, or just don't want to cook. I also order food delivery from time to time, especially after a long day.

When I feel hungry and don't want to cook, I usually open a food delivery app. There are many restaurants to choose from, so I spend some time looking through the options. I check the menu, prices, and photos of the dishes.

I also pay attention to customer reviews. They help me understand if the food is tasty and if the service is good. Although reviews are not always perfect, they give useful information.

After choosing a restaurant, I look at the menu and decide what to order. I usually choose something simple like pizza, pasta, or a burger. Sometimes I try new dishes, but not very often. I prefer food that I already know and like.

Then I add the dishes to my cart. I also check if there are any special offers or discounts. Sometimes I can get free delivery or a lower price, which is always nice.

Next, I go to checkout. I enter my address and check the delivery time. Some restaurants deliver food very quickly, but sometimes I need to wait longer, especially in the evening.

After that, I choose a payment method. I usually pay by card, but sometimes I pay in cash when the courier arrives. When the order is confirmed, I receive a message with the details.

While I am waiting, I sometimes track the delivery. It is interesting to see where my food is and how long it will take. I usually feel excited when the order is on the way.

When the courier arrives, I take my food and check the order. If everything is correct, I start eating right away. If something is missing or wrong, I can contact support and ask for help.

Of course, food delivery has some disadvantages. For example, it can be more expensive than cooking at home. Also, the food is not always as fresh as in a restaurant. However, it is still very convenient and saves time.

In general, ordering food delivery is a great option when I am busy or tired. It makes life easier and gives me a chance to enjoy different types of food without cooking.

Coffee shop conversations — Разговоры в кофейне

Text

Going to a coffee shop is a popular way to relax, meet friends, or even work. Coffee shops are usually comfortable and have a friendly atmosphere, so people often spend time there talking or enjoying a drink. I like going to coffee shops because it is a nice place to take a break and have simple conversations.

When I enter a coffee shop, I usually look at the menu first. There are many options, such as coffee, tea, and different desserts. If I am not sure what to choose, I sometimes ask the barista for recommendations. This helps me try something new.

When I am ready, I go to the counter and place my order. I might say, «Can I have a latte, please?» or «I'd like a cappuccino.» If I want something to eat, I also order a sandwich or a piece of cake. After that, I pay and wait for my order.

Sometimes I go to a coffee shop alone, but often I meet friends there. When I meet someone, we usually start with simple questions like «How are you?» or «How was your day?» These questions help to start the conversation in a natural way.

We often talk about daily life, work, studies, or plans for the weekend. For example, I might say, «I had a busy day at work,» or «I am planning to travel soon.» My friends also share their news, so the conversation becomes more interesting.

Sometimes we also talk about hobbies or interests. For example, we discuss movies, music, or books. These topics are easy and enjoyable, and they help us relax.

In a coffee shop, people also often use polite expressions. For example, we say «please,» «thank you,» and «excuse me.» If we need something, we can say, «Could I get some water?» or «Can you help me?» Polite language is important in public places.

If the coffee shop is busy, it can be a bit noisy. Although it is not always perfect for long conversations, it still has a nice atmosphere. I like the background noise because it makes the place feel alive.

Sometimes I also bring my laptop and do some work while drinking coffee. It is easier to focus in a comfortable place, especially when there are not too many distractions.

When I finish my drink, I usually stay for a while and continue talking or relaxing. Before leaving, I always clean my table and say goodbye to my friends.

In general, coffee shop conversations are simple, friendly, and relaxed. They are a good way to communicate, practice English, and enjoy time with other people.

Talking about hobbies — Разговор о хобби

Text

Talking about hobbies is a common and easy way to start a conversation. People often ask about hobbies when they meet someone new because it helps them find common interests. I also like talking about hobbies because it is a simple and interesting topic.

A hobby is something you do in your free time for fun. It can be anything, such as reading, watching movies, playing sports, or listening to music. Everyone has different hobbies, and that makes conversations more interesting.

When I talk about my hobbies, I usually say what I like to do and why I enjoy it. For example, I might say, «I like watching movies because it helps me relax,» or «I enjoy listening to music because it improves my mood.» These simple sentences help me express my thoughts clearly.

Sometimes people ask, «What do you do in your free time?» or «Do you have any hobbies?» These questions are very common. I usually answer with a short explanation and then add some details.

I also like to ask other people about their hobbies. For example, I can say, «What do you like to do in your free time?» or «Do you enjoy sports?» This helps to continue the conversation and show interest.

When people talk about hobbies, they often use expressions like «I am interested in...,» «I enjoy...,» or «I spend time...». These phrases are very useful and easy to remember.

Sometimes I discover new hobbies through conversations. For example, a friend might tell me about a new activity, and I decide to try it. Although I don't always like every new hobby, it is still a good experience.
